**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

**DETAILED ACTION**

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Iura et al(5,617,312) in view of Dunthorn(5,317,140).

Iura et al disclose a method and an apparatus for inputting information including coordinate data comprising a camera(100) mounted on top of a display device(202), an object extracting device(106) for extracting a predetermined object and recognizing the shape of the predetermined object(column 3, lines 59-67), a motion detector device(107) for detecting a motion of the predetermined object(column 4, lines 32-65) and for determining whether to input a predetermined information(column 5, lines 1-9). Iura et al substantially show all the feature of the above claims except for the "providing at least two cameras located at respective corners of a display" and "calculating angles of views of each of the at least two cameras for calculating the coordinates of the predetermined object". However, Donthorn is cited to show that the concept of utilizing at least two cameras located at respective corners of a display device(column 6, lines 5-37; column 7, lines 6-54) for determining a position of an object based on the viewing angles of the cameras(i.e., triangulation; column 7, lines 18-38). Thus, it would have

been obvious to one of ordinary skill in the art to modify the system of Iura et al with the above noted teachings of Dunthorn such that to provide two cameras at respective corners of the display device (202) for determining the position of the object based on the viewing angles of the cameras because both references are related to determination of the position of an object based on feature extraction of the object by utilizing cameras.

3. Applicant's arguments with respect to claims 1-6 have been considered but are moot in view of the new ground(s) of rejection.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
